## Vision of SCS Youth Diversity Council

We, as members of the St. Clair Shores Youth Diversity Council, will devote all efforts to the improvement of our beloved community. To do so, we will aim to break down structures in our community that demote the value of diversity and promote racism, sexism and other intolerant conducts. We strive to build an inclusive community where no one is left behind. While doing so, we will still continue to acknowledge the fact that everyone is entitled to their own opinions. Ultimately, our goal is to bring to light the importance and benefits of a diverse community by providing the tools to widen the community's horizons and open the hearts and minds of its citizens.

### Goals:
